We are a purpose built dental practice situated just outside of Leeds which has been expertly designed to give you the best experience possible when visiting the dentist.

You first arrive at The Springs, a brand new and aesthetically designed outdoor retail park just outside of Leeds with unlimited free parking on site.

A short stroll down the modern central corridor and round the corner past Odeon and Nandos.

Inside your private waiting room you will find yourself able to relax and unwind. You won't have to worry about anybody else, just sit back, watch some TV, play some games on the games console, play your favourite music on the Alexa and charge your phone on the provided wireless charger whilst waiting to be called through.

When called through you will find yourself in a state of the art equipped surgery with some of the last advancements in dentistry available for treatment.

When lying back and having your treatment, there is a smart TV on the ceiling allowing you to catch up on your favourite Netflix shows whilst receiving treatment.

# Your First Appointment

Your initial appointment with us will firstly involve recording some information about your general health and lifestyle. This will be followed by an informal conversation to learn more about you as an individual and your treatment/dental health goals and what we can offer you to help get you there.

We will then carry out a comprehensive examination of all of the soft and hard tissues of the head, neck and mouth. We will take clinical photographs and any relevant X-rays.

Once the clinical examination is complete we will review our findings together with you and relate them to your treatment/dental health goals you outlined at the beginning of your consultation.

The final stage will be solidifying a treatment plan with you.

Let us take this opportunity to thank you for choosing us here at Vitruvian Dental Studio to care for your oral health.

## Membership Plans (Prices start at just £12.95/month)

Pay-monthly membership plans a popular way to enjoy quality, private dental care.

They allow you the peace of mind that all of your routine examinations, hygiene appointments are covered as well as any emergency appointments.

To be accepted onto a payment plan you must be declared 'dentally fit' which means any current disease or outstanding treatment (i.e. decay, abscess, broken teeth, lost fillings etc) must be completed first.

The payment plan that is suitable for you will be determined by your current dental health which will need to be assessed at your initial consultation. This will be recommended and explained to you from your treating dentist.

If you would like further information on practice payment plans please contact us or mention it at your first appointment and we will be happy to advise and send you our information pack.
